

Release & Vesting Management Application - User Guide

1. Overview

This application helps administrators and participants manage equity awards, vesting schedules, and release events efficiently.

2. Key Concepts

- **Grant:** Equity award assigned to a participant.
- **Vesting:** Process of earning rights over time.
- **Vesting Date:** Date when grant becomes available.
- **Release:** Delivery of vested shares after checks.
- **Participant:** Employee or stakeholder holding equity.

3. User Roles

- **Participant:** View grants, track releases, complete compliance.
- **Administrator:** Manage grants, trigger releases, handle exceptions.

4. Application Modules

- Dashboard: Overview and alerts
- Participant Management
- Grant & Award Management
- Vesting Schedule
- Release Management
- Reports & Analytics

5. Release Simulation

Simulation allows previewing release outcomes before execution.

Steps to Simulate a Release

- Navigate to Release Management
- Select vesting date
- Click 'Simulate Release'
- System performs validation checks
- Review summary and exceptions
- Fix issues and re-run simulation
- Approve and proceed to release

6. Best Practices

- Run simulation before release
- Resolve blocked participants early
- Maintain clean data
- Use logs for audit
